

## Material Handling

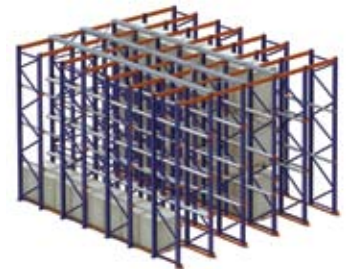

### Products and Solutions for all Your Warehousing Needs

Efficient, flexible and capacity are goals that Metro Relocations strive for with each and every project. Whether it is design, engineering or construction, we will work tirelessly to bring you the best products and services aimed at maximizing productivity. Our products and solutions are geared to evolve with emerging technologies, but remain compatible within today's popular Warehouse Management System (WMS).

## We sell all types of racking equipment

### ► New and Quality Pre-owned Materials

Proper storage and flow of material can transform your business by slashing costs and increasing efficiency. We offer very competitive prices and carry large stocks of new and pre-owned Industrial Pallet Racking and Shelving Systems. We provide a nationwide fast-track delivery and installation service that comply with the OSHA code of practice.
